

WE ARE CONNECTED

2019-2020

con-nect-ed

: having the parts or elements logically linked together.

We are **connected** and our foundation is strong. Together we celebrate, strive, overcome, and grow. We see each other in classes, pass each other going to and from, laugh, live and dream. Our school brings us together and **connects** us. This book is a glimpse of our story, our bond, and our moments from different perspectives. "We don't know who we are until we are **connected** to someone else" - Maggie Siff
